Why AZRA-2025?

The XIXAZRA International Conference “**Environmental shift: impact on animal biota, food, feed and nutritional security**” in short **AZRA-2025**, the proposed joint event, aims to discuss current vital problems related to the impact of the shifting environment on food and feed, nutrition security and human health. Information and plans for future research and development will be focussed. The issues related to food and nutrition, cater to the needs of burgeoning human and feed for other animals on the Earth, where India has the largest human population. That is why broad-based five themes of the conference are selected with special emphasis on the shifting environment. Biotechnology & digital science support for food production, protection and environmental safety will be focussed during the period of global industrial revolution. Researchers, teachers & related professionals are cordially invited to participate in this joint event for the cause of related bioscience.

Conference Themes

- Theme-1:** Impact of environmental shift on food production through animal resources- Aquaculture & Fisheries, Veterinary Sciences; Productive Entomology including Food & Medicinal Insects, Lac culture, Apiculture, Sericulture etc.
- Theme-2:** Plant Protection-Pest scenario, losses due to pests, pest monitoring, pest management strategies like Host Plant Resistance (HPR), Biopesticides, Synthetic pesticides & IPM.
- Theme-3:** Bio-medical Sciences & Environment- Global pandemic, vector science, parasitology, toxicology & pesticide hazards, biodiversity assessment & conservation; environmental pollution & climate change.
- Theme-4:** Nanotechnology, Biotechnology, Multi-omics & SMART technology (Digital science-AI, ML, DL, etc.) support food production, protection and environmental safety.
- Theme-5:** Applied research relating to Social Science in Agriculture and allied sector for food, feed, nutritional & environmental security, technology transfer, gender equity, entrepreneurship and empowerment.
